

4-H YOUth Growing

Grow with Trees

We are reaching out to the Land and Water Conservation Division of the Washington County Planning and Park Department to partner with the “Trees and Prairie Program.” Through this program we will learn about trees and how the Land Water department services the public with trees that will help the environment and keep nature in our community.

Tuesday, April 24, 2018
3:00 to 8:00 p.m.

Washington County Fair Park
Small Animal Building

Sort and package trees

We have included the wavier and signup sheet for you to review. To make the program work, we need to volunteers age 12 and adults with each group. The reason for age level is due to the fact that they need to be able to handle large packages and some heavy orders. Instruction will be given from the Land and Water workers at the event. We ask that you dress for cool weather, damp and dirty may also be a part of the day.

You will have the opportunity to learn about the Washington County Tree Program, learn about different kinds of trees, how to plant trees and more. It is also a great way to partner with county programs.

Washington County Tree Program
April 24, 2018
Washington County Fair Park - Small Animal Barn

Sign up will be first come - so sign up early.

8- 10 volunteers at this time 3:00 to 8:00 p.m.
