

Agricultural Mosaic

Description: There are many different ways you can use seeds other than plant them.

Purpose: Learning about the different seeds that Wisconsin farmers grow.

Time: 30 minutes

Age/Grade Level: 5k and up

Suggestions:

Materials:

- Green Bean seeds
- Corn seeds
- Pea Seeds
- Sunflower seeds
- Print out of Wisconsin
- Glue

What to Do:

1. Give each person a picture of Wisconsin
2. Set out bowls of each seed at different tables
3. Tell each person that they have to use at least 10 of each seed for their pictures.
4. Glue each seed down inside the lines of Wisconsin.

Reflection Questions:

1. What is one type of plant does farmers use to feed their cows?
2. What other types of seeds can you use for this project?
